

MUKOVHE RAMADWA

Software Developer | Sandton, Johannesburg | 0797477393 | ramadwamukovhe91@gmail.com

PROFESSIONAL SUMMARY

Results-driven Information Technology graduate and Software Developer with experience in software development, software testing, web development, IT support, and system administration. Skilled in designing, developing, testing, and maintaining software applications while ensuring quality, performance, and reliability through structured testing methodologies. Proficient in Python, HTML, CSS, JavaScript, SQL, Git, and modern software development practices, with hands-on experience in manual testing, defect tracking, API testing, and quality assurance processes.

CORE TECHNICAL SKILLS

- Software Development | Software Engineering | Application Development
- Computer Programming | Python Development | Scripting
- Web Development | Front-End (HTML, CSS, JavaScript)
- Back-End Development (Basic APIs, Server Logic)
- Full-Stack Development Fundamentals
- DevOps Fundamentals (CI/CD, Deployment, Version Control)
- Git & GitHub | Code Versioning
- Debugging, Testing & Troubleshooting
- Web Hosting, DNS & Domain Configuration
- API Integration (Basic)
- Database Concepts (SQL Basics)
- Data Management
- IT Support & System Administration
- Network Configuration (Fibre, LTE, ADSL)
- Email Systems (SMTP, IMAP, POP3)

PROFESSIONAL EXPERIENCE

Software Tester - Veltrobiz Consulting FEB 2024 - FEB 2025

- Conducted manual testing of web and mobile applications to identify defects, bugs, and usability issues.
- Developed and executed test cases, test plans, and test scenarios based on business requirements.
- Performed functional, regression, integration, and user acceptance testing (UAT).
- Logged, tracked, and verified software defects using bug-tracking tools.
- Collaborated with software developers and business analysts to resolve issues and improve software quality.
- Participated in Agile/Scrum meetings, including sprint planning, daily stand-ups, and retrospectives.
- Verified software fixes and ensured compliance with quality standards before deployment.
- Tested application performance, compatibility, and user experience across different devices and browsers.

Tools & Technologies Used:

- Jira (Bug Tracking & Project Management)
- TestRail (Test Case Management)
- Selenium (Test Automation)
- Postman (API Testing)
- Azure DevOps
- Git & GitHub

IT Support Specialist & Web Developer – Selokela Mashola Attorneys FEB 2025 - JULY 2025

- Provided IT technical support while contributing to software and web development projects
- Developed and maintained responsive websites and web applications
- Assisted in debugging, testing, and improving system performance
- Managed hosting environments, DNS, and deployments
- Resolved hardware, software, and network-related issues
- Configured internal systems and email services
- Managed and maintained data records, ensuring accuracy and integrity of information systems

EDUCATION

Bachelor Of Science In Information Technology - Richfield Graduate Institute Of Technology (2026 - 2027)

Diploma in Information Technology – Richfield Graduate Institute of Technology (2023–2025)

National Senior Certificate – Kutama Secondary School (2021)

ADDITIONAL COMPETENCIES

- Strong analytical and problem-solving skills
- Agile mindset and adaptability
- Team collaboration and communication
- Continuous learning in software engineering and DevOps •

Ability to work in high-pressure environments

- IT Asset Lifecycle Management
- Asset Register Administration
- IT Asset Tracking & Monitoring
- Asset Maintenance & Warranty Management
- IT Inventory Control
- Service Request & Incident Logging
- IT Service Management (ITSM)
